About Me

Systems Engineer passionate about Full-Stack and Mobile development, with a focus on building functional and scalable solutions. I am a proactive professional, committed to continuous learning and applying engineering best practices to ensure high-quality code. Motivated to contribute to impactful projects, I bring a collaborative mindset and a strong drive to deliver reliable and maintainable results.

Technical Skills

Languages: TypeScript, JavaScript, Python, Dart, Solidity, C++, C#.

Frontend: React, NextJS, Redux, HTML5, CSS.

Backend: Node.js, NestJS, Express, Prisma.

Mobile: Flutter (BLoC, Cubit).

Databases: PostgreSQL, MySQL, MongoDB, Firestore, Supabase, NeonDB.

Testing & Quality: Cypress, Jest, Playwright.

Tools & Practices: Git, GitHub, Postman, Trello, Figma, Agile (Scrum).

Development Tools: Visual Studio Code, Visual Studio, Android Studio.

Others: Foundry, NPM, PNPM.

Professional Experience

Freelance Full-Stack Developer (2025)

Tu Café - Restaurant Management System

React, Redux, Firestore, Flutter, Nest.js, Prisma

- Designed and developed a full-stack system for in person and online orders.
- Built scalable backend services to support high daily orders.
- Improved operational efficiency and customer experience through optimized order flows.

Freelance Full-Stack Developer (2025)

Importadora Santiago - Inventory Management System

React, NeonDB, Supabase, Express, Node.js

- Developed an inventory control platform for a medical equipment supplier.
- Reduced stock inconsistencies and manual errors.
- Implemented role-based access and structured data validation.

Mobile Development Internship (2024)

COBOCE Cemento

Kotlin, PostgreSQL, NeonDB

- Developed a mobile application to facilitate products sales and quotations.
- Streamlined the sales workflow, reducing manual steps for sales representatives.

University Projects

Totem Interactive Display (2025)

React, Firebase, Supabase, Flutter

- Developed an interactive display with real-time database synchronization.
- Implemented state management using BLoc for scalable and maintainable UI behavior.

Android Application Development (2024)

Flutter, Firebase, Google APIs

- Designed and developed a Flutter application with push notifications.
- Integrated Google APIs and deployed the application to the Play Store as a project.

Web Quality & Metrics Project (2024)

React, NeonDB, SonarQube, Python

- Served as Scrum Master for the Quality Team.
- Implemented different metrics such as cyclomatic and cognitive complexity using SonarQube to ensure code quality.

Travel Agency Web Platform (2024)

React, Redux, Firebase, Express, Node.js

- Developed a full-stack web application simulating a travel agency.
- Implemented booking flows, hotel reservations, and itinerary planning.
- Designed the UI/UX for a responsive and interactive user experience, and managed state using Redux to ensure smooth navigation and data consistency.

Education

Systems Engineering Universidad Católica Boliviana San Pablo	Cochabamba – Bolivia 2020 - 2025
Colegio La Salle Graduated in Humanities	Cochabamba – Bolivia 2008 - 2019
La Salle College High School Student exchange program to strengthen academic and English language skills	Philadelphia – United States February 2019 – May 2019

Certifications & Training

- **English Certificate (C1 Advanced)** – EF SET
- **C++ & JavaScript Course** – Sololearn
- **Ethereum Developer Pack** – *Ethereum Bolivia*
- **Solidity Smart Contract Developer** – Cyfrin Updraft
- **Full Stack Course** – Full Stack Open

Languages

Spanish (Native) – English (C1) – Italian (Basic)
